

# Installing WordPress With Quick Install

Previously, we used Fantastico to install WordPress on your site (see page 37-39 of Unplugged And Making Money Workshop Manual). Due to Fantastico being discontinued, click instead on “QuickInstall” under “Software/Services.”

Then, click on “WordPress” in the QuickInstall sidebar.

This will add a WordPress install to your site. Click “Continue.”

	<b>WordPress</b>
WordPress is web software you can use to create a beautiful website or blog. We like to say that WordPress is both free and priceless at the same time.	
<b>Version:</b> 4.0.1	
<b>Install Size:</b> 42.23 MB	
<b>Official Site:</b> <a href="http://wordpress.org/">http://wordpress.org/</a>	

 **Continue**

Here, select your domain that you wish to add the WordPress installation to (1).

Then, add the e-mail you want notifications sent to, your company/website name, an admin name for logging in with (not “admin”), and your name as you want it to appear in posts (2).

Then, click “Install Now” (3).

## WordPress

WordPress is web software you can use to create a beautiful website or blog. We like to say that WordPress is both free and priceless at the same time.

**Version:** 4.0.1  
**Install Size:** 42.23 MB  
**Official Site:** <http://wordpress.org/>

### Install WordPress

Application URL (where you will find the app in your browser):

http://  

---

Enable Auto Upgrades:

Admin Email:	<input type="text" value="evinrileypublishing.com"/>	
Blog Title:	<input type="text" value="The Gardener"/>	
Admin User:	<input type="text" value="garden777"/>	
First Name:	<input type="text" value="John"/>	
Last Name:	<input type="text" value="Gardener"/>	

In a few minutes, your installation will have loaded (1). This new installation software generates a secure password for you (2). Copy it and save in a safe location.

Now, your WordPress site is ready for adding a theme and making the other changes (as shown starting on page 102 of the Unplugged And Making Money Workshop Manual). Copy the password and go log in to your site's WordPress dashboard (as shown in your manual).
